Search image pre-...

image pre-processing

Samy Coulombe posted Feb 28, 2019 11:46 AM [☆ Subscribe](#)

Hi, the project specs don't mention anything about what we can/can't do in terms of pre-processing on the images. Should we limit ourselves in that respect, or is it really carte blanche?

Totally carte blanche :) Though we really want you to build a ML model and not to try to solve the problem via a hand-crafted image processing pipeline.
